Pages: 160

Pictures B&W: / Color: 100

Price: CHF 38, EUR 25, GBP 19, USD 29

THE SKY IS THE LIMIT ...

The "Negative Space" project is a book made of photographs taken by the Hubble Space Telescope and inverted. As "color negatives" of outer space (stars, solar systems, galaxies, nebulae, black holes, and exotic cosmic phenomena) it maps our universe in a book form. The book had been conceived by the artist in collaboration with graphic designer Conny Purtill, on the occasion of Thomson's exhibition at GAMEC, Bergamo.

The publication is part of the series of artists' projects edited by Christoph Keller.
