SER SERPAS

UNTITLED, XXVIII

CATEGORY: Monotypes

SPECIFICATIONS:

DESCRIPTION

Ser Serpas (b. 1995) produced this series of unique monotypes in rapid succession utilizing vibrant colors in an expressionistic and gestural manner to create an image of a single figure looking down at the ground. The inspiration behind the figure is based on an image the artist generated on the AI platform, Craiyon LLC. The characteristics of the figure are obscured, particularly in the face—its grimacing expression at once intelligible while also not constant and shifting in space as if seen in a dream or hallucination.

Serpas is known for her earth-toned paintings, multi media installations, and sculptures made from found objects. The artist lives and works in New York, Paris, and Tbilisi.
